#### Contest Kommentare, Commentaires:

**HB9AOF:** Dame propagation était en vacances ce week-end. Presque uniquement des contacts en tropo, quelques ouvertures instables à la fin du contest.

**HB9FX:** Diesmal sind wir im Hauptquartier von HB9FX. Wir bestreiten diesen auf dem Turm der Hochwacht bei Zofingen. Zeitgleich fand die Mastfussparty des Funkvereins Zofingerrunde statt. Zahlreiche Besucher genossen das wunderschöne Sommerwochenende. Vielen Dank an alle Helfer die uns unterstützt haben. Leider... ja kaum zu glauben...war genau an diesem Wochenende das Magic Band nicht offen. Halt schon Magic hi

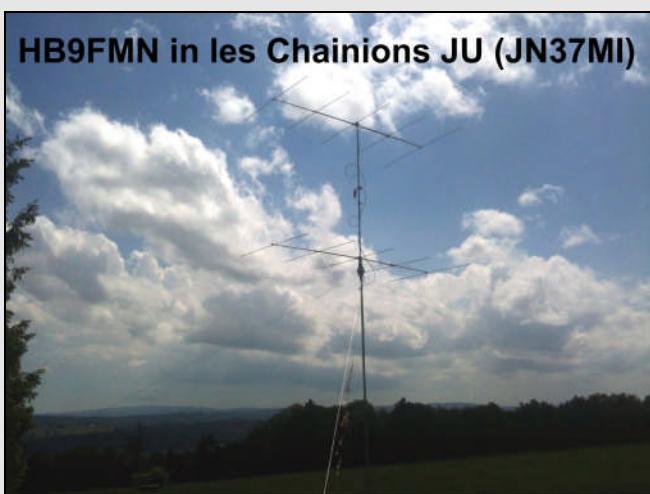

Ludovic, HB9EOU

**HB9FMN:** The propagation was even worse than last year. Despite of it, we definitely managed to make the best out of it. Almost no ES, mostly TROPO, some scatter or local QSOS. This year we improved our setup by implementing new features such as voice-keyer, foot PTT-Switch and boom microphone. Our 2x5 element yagi stack antenna system has worked very well. We did not have big ambitions this year since we were not really prepared. However we are quite pleased with the final results. We are looking forward to the 2014 edition with hopefully better propagation conditions.
