

International Amateur Radio Union Region 1 Interim Meeting – Vienna Austria 27-28 April 2019

Document number: to be assigned by IARU Region 1 Secretary
Source: Willi Vollenweider, HB9AMC, USKA, President
Subject: Improved annual reporting to member societies
Committee(s): C4/C5/C7

Text

Member Societies should be informed on an annual basis with a summary of IARU activities that happened during the calendar year.

This includes:

1. Annual Report (President, Working Groups, etc)
2. Financial Report

This information should be sent out to member societies automatically upon completion, without the member societies having to ask explicitly for it at the secretariat.

Furthermore, these documents should be made available at the same time on IARU's web site to be viewed publicly by individual members of member societies and other interested parties. There is no need to hide this information as has been practised in the past.

Proposal:

The EC is mandated to establish and distribute on a yearly basis an annual report summarizing IARU R1's main activities in detail considered to be appropriate, as well as a financial report (profit & loss report and balance sheet).

Financial Implications:

None.
